

WORKSHOPS - SESSION TWO

Creating Resilient Learners – The Get It! Model of Learning

Mr Andrew Fuller
(Clinical Psychologist, Family Therapist and Lecturer,
Child Psychiatry Training Program, University of Melbourne)

ABSTRACT

Get It! is a model of learning developed by Andrew Fuller that draws together research on resilience with recent findings on neurological functioning and learning. This presentation provides a brief overview of the model and then topples over into activities that illustrate ways of creating resilient learners. Warning: This workshop could cause laughter! Andrew Fuller is a tricky customer who is difficult to describe.
